

## FAR-INFRARED SAUNA

x2

Signature **EURO** | inside or outside installation

The Signature series sauna provides Solocarbon<sup>®</sup> heating in a robust cabin design. Simple touchpad controls and entertainment features makes the Signature series a cost-effective and user-friendly sauna that supports your daily wellness routine, pain relief, weight loss or detox program.

### FEATURES INCLUDE:

- Patented Solocarbon<sup>®</sup> heating technology
- New European design with spacious cabin and additional heaters
- Ultra-low EMF – negligible electromagnetic field emissions
- Canadian Red Cedar timber sourced from sustainably managed forests
- Economical & easy to use (approx. 60c per hour), low maintenance
- Blaupunkt radio/CD and speakers (iPod and MP3 compatible)
- 5 year warranty (12 months parts & labour, plus 4 yrs parts & service support)

### MAGNE-SEAL ASSEMBLY

[Requires no screws or clips]

Sunlighten's patented Magne-Seal<sup>TM</sup> assembly process maintains the integrity of the sauna while allowing you to easily snap together walls making it easy to set up and take down. As the sauna naturally expands and contracts during use, Magne-Seal<sup>TM</sup> adapts to prevent cracks and warping for prolonged cabinetry, while keeping the heat in and the cool air out. It is as strong and durable as clips, buckles or screws but invisible to the naked eye.

<b>DIMENSIONS</b>	129cm W	117 cm D	197.5cm H
